INDEPENDENT AUDITORS' REPORT

Board of Directors
Redwine & Company, Inc.

We have audited the accompanying statement of financial condition of Redwine & Company, Inc. as of December 31, 2007 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to attain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Redwine & Company, Inc. as of December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

Interest paid during the year ended December 31, 2007 was \$32,945.

NOTE 8 - OFF-BALANCE SHEET RISK AND CLEARING AGREEMENT

The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include the purchase of exchange-traded options. These derivative financial instruments are used to meet the needs of customers and conduct investment and trading activities and are, therefore, subject to varying degrees of market and credit risk.

As a writer of options, the Company receives a premium in exchange for giving the counterparty the right to buy or sell the security at a future date at a contracted price. The contractual or notional amounts related to these financial instruments reflect the volume and activity and do not reflect the amounts at risk. The credit risk for options is limited to the unrealized market valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates.

In addition, the Company and its customers may sell securities that they do not currently own and will therefore be obligated to purchase such securities at a future date.

In order to facilitate securities transactions, including the aforementioned transactions, the Company has entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer.

NOTE 8 - OFF-BALANCE SHEET RISK AND CLEARING AGREEMENT - (Continued)

on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

Under the terms of the agreement, the Company is prohibited from entering into a similar agreement with any other broker/dealer without first obtaining written consent from its Clearing Broker/dealer. The Company is also required to maintain a deposit of \$100,000 with the Clearing Broker/dealer. Termination charges and other items are discussed therein.
